### WORK EXPERIENCE

#### Senior Business Financial Analyst

#### Clyde Engineering Consultants, Dubai. March 2023 – Current

**Clyde  
Engineering  
Consultants**

- Act as a bridge between IT, Finance, Data Analytics, and Operations, facilitating effective communication and collaboration across departments.
- Build and design dashboards to analyze and present trends in energy consumption and solar production.
- Establish benchmarks for energy and financial analysis, ensuring accurate and consistent evaluations.
- Gather requirements from various departments to build and design an ERP system using C# and .NET Framework, enhancing operational efficiency.
- Provide support to clients and internal teams facing challenges with the ERP system, ensuring seamless operation and user satisfaction.
- Deploy and manage ERP systems on AWS, utilizing Linux servers, Kubernetes, Nginx, and MySQL for database management. Ensure system functionality and address any arising issues.
- Use GitHub to implement and manage the CI/CD pipeline for continuous integration and deployment.
- Oversee data management and security, drafting data security policies and ensuring compliance. Conduct thorough testing of systems and manage data integrity.
- Develop financial models and prepare visual financial statements. Perform variance analysis and present financial reports to stakeholders.
- Draft policies and document procedures and troubleshooting guides for all systems and processes.
- Provide guidance and leadership to team members, managing their activities and fostering a productive work environment.

## Financial Data Analyst

**Vernewell Group, Dubai. April 2021 – March 2023**

- Built and maintained Power BI dashboards to provide stakeholders with real-time financial data insights, translating complex financial statements into visual dashboards for easy understanding by non-finance stakeholders.
- Utilized MySQL to extract, manipulate, and manage large datasets for comprehensive data analysis and reporting purposes.
- Prepared, analyzed, and presented consolidated financial statements and reports, ensuring compliance with accounting standards (IFRS) and facilitating strategic decision-making.
- Developed business plans, conducted research, and prepared budgets and financial forecasts for both the company and external clients.
- Calculated, prepared, and submitted VAT declarations to the FTA portal. As well as assisted clients with VAT and Excise tax registration and compliance.
- Maintained accurate financial records, including general ledger accounts, accounts receivable and payable, and conducted thorough bank reconciliations.
- Developed and implemented financial policies and procedures to support business goals, manage cash flow, and ensure compliance with internal controls.
- Collaborated with cross-functional teams to develop and implement data-driven solutions, contributing to strategic initiatives and operational improvements.

## Price Analyst & Accounts Assistant

**Repairplus LLC, Dubai. Nov 2019 – Mar 2021**

- Created and presented reports and dashboards in Power BI to communicate pricing insights and recommendations to the management team.
- Utilized Excel to analyze pricing data, including pricing trends, competitor pricing, and cost analysis
- Developed and maintained pricing models using SQL and Power BI to improve pricing accuracy and increase profitability.
- Assist in the preparation of monthly, quarterly, and annual financial reports and analysis, including variance analysis and trend analysis.
- Conduct competitive pricing analysis and research to stay up-to-date on industry trends and competitive landscape.
- Monitor and analyze pricing data, trends, and market conditions to inform pricing strategies and decisions.
- Collaborate with cross-functional teams, including sales, and product management, to develop and implement pricing strategies that align with business objectives.
- Developed reports and visualizations using Power BI to communicate data insights to stakeholders
- Collaborated with IT teams to improve data quality and implement new reporting solutions

## Accounts Assistant

**Zimbabwe National Statistics , Zimbabwe. July 2017 – Aug 2019**

- Administered clerical and administrative duties such as data entry, word processing, and document management.
- Organized and tracked budget documentation to maintain tight financial controls.
- Utilized Sage Pastel to generate weekly and monthly financial reports.
- Assisted in collecting data and creating budget reports and documents.
- Managed day-to-day accounting department duties.
- Prepared and maintained accounts payable and accounts receivable.
- Performed assets counting and valuation.
- Assisted with financial reports and audits, fact checks, and resolving discrepancies.

---
